

Dr. rer. nat. Daniel Merschen

Research Assistant

merschen[at]embedded[dot]rwth-aachen[dot]de

Phone +49 241 80 211

Fax +49 241 80 22150

Address: Ahornstr. 55, 52074 Aachen, Germany

Office: room 2319 (building H)

Research Activities

Within my research activities I currently elaborate on model-based techniques to analyse variant-rich model-based product lines of embedded software. To this end, I apply existing frameworks of the Eclipse framework to analyse Matlab/Simulink models with respect to different challenges. These challenges are mainly related to the complexity of such models which are caused by an increasing number of variants covered by a Simulink model and by historical growth. To manage the complexity I create logical views on Simulink models and link different software development process artefacts (i.e. implementation, requirements and tests) as well as features. Details about the research topic can be found [here](#).

Teaching

- Winter term 08/09:
 1. [Introduction to Technical Computer Science](#)
- Winter term 09/10:
 1. [Komponentenbasierte Softwareentwicklung am Beispiel von Android](#)
 2. [Hardwarenahe Programmierung](#) (Betreuung eines Versuchs)
- Winter term 10/11:
 1. [Model-based Analysis of Simulink Models](#)
 2. [Hardwarenahe Programmierung](#) (Betreuung eines Versuchs)

Theses

I continuously derive topics for theses from my research activities. If you are interested in a thesis please contact me via email.
