

Change of Date "Introduction to Embedded Systems"

Because of overlapping with other lectures such as Software Engineering, we have rescheduled the date of our lecture on Tuesday. The new dates are

- Monday, 8:15am - 9:45am (AH III)
- Tuesday, 11:45am - 1:15pm (AH I)

However, there is still overlapping with the exercises in Software Engineering. Please keep this in mind in case you're planning to participate in both lectures.
