

# Dr.-Ing. Bassam Alrifaae

Senior Researcher and Lecturer/Head of the [Cyber-Physical Mobility Group](#)

## Contact

E-mail: [alrifaae\[at\]embedded\[dot\]rwth-aachen\[dot\]de](mailto:alrifaae@embedded.rwth-aachen.de)

Phone: +49 241 80 21163

Fax: +49 241 80 22150

Address: Ahornstr. 55, 52074 Aachen, Germany

Office: 2309

## About

Bassam is a Senior Researcher and Lecturer at the Chair of Embedded Software, RWTH Aachen University, Germany. He is the founder of the [Cyber-Physical Mobility Group](#) and [Lab](#). His research interests include (i) Networked Control Systems, (ii) Service-Oriented Software Architectures for Control Systems, and (iii) applications of (i) and (ii) to Connected and Autonomous Vehicles. He is the Principal Investigator of several projects. From 2011 to 2017, he was a research associate with the Institute of Automatic Control at RWTH Aachen University, where he received his PhD.

The website of the [Cyber-Physical Mobility Group](#) provides more information on my research and teaching activities as well as funding acquisition.

A complete list of my publications can be found in [Google Scholar](#).
